Frazer R. Lockhart
Environmental Restoration Division
DOE, RFO

Attn: S. R. Surovchak

TRANSMITTAL OF "TECHNICAL MEMORANDUM'S NO. 2- "MODIFICATIONS TO FIELD ACTIVITIES", NO. 3- "ENVIRONMENTAL EVALUATION", and NO. 4- "HUMAN HEALTH RISK ASSESSMENT EXPOSURE SENARIOS". FOR OPERABLE UNIT NO. 4 - EML-179-93

In accordance with the Rocky Flats Plant (RFP) Interagency Agreement (IAG) signed by the U.S. Department of Energy (DOE), U. S. Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) on January 22, 1991, EG&G Rocky Flats Inc., is transmitting 3 copies each of the above referenced documents to DOE for EPA and CDH review and comment. EG&G Rocky Flats has incorporated DOE's comments into the referenced documents, as appropriate, and are currently developing a "comment responsiveness summary" document for DOE.

In order for EG&G to maintain compliance with the Phase I RFI/RI schedule for Operable Unit No. 4 (OU-4), comments from EPA and CDH are required no later than April 16, 1993. This schedule shall provide EPA and CDH with approximately a one month review and comment period (21 working days), March 18, 1993 through April 16, 1993. EG&G Rocky Flats is prepared to deliver the technical memorandums to EPA and CDH subsequent to receipt of DOE's transmittal letter to EPA and CDH.

If you have any questions or comments pertaining to this matter, please contact R. T. Ogg of my staff on 966-8608.
